Reading

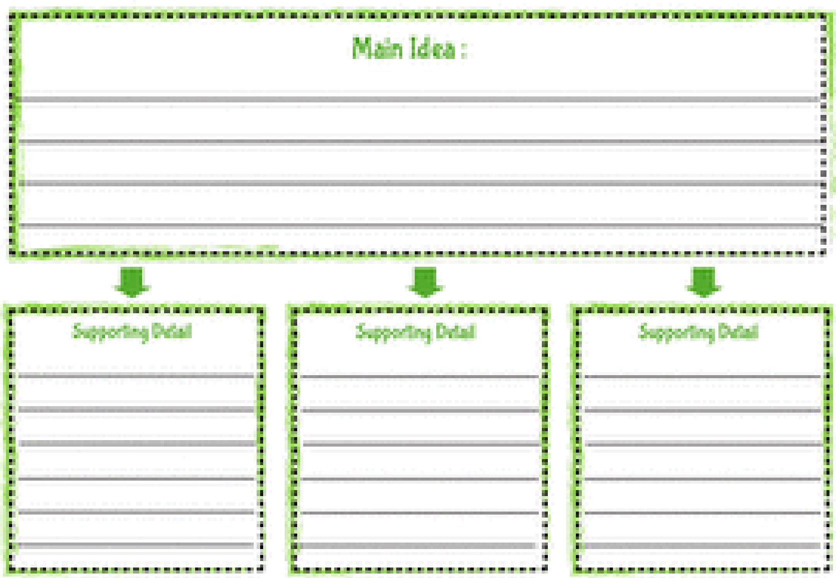

Trains

The first steam machine to carry travellers was built 200 years ago. It took 2 hours to travel from a city to another city. The early steam trains burned coal to boil water and make steam. Trains have changed a lot over time. They used different sorts of power to help them travel faster and use less gas . Some trains use oil and some use electricity. Trains that use gas have large, heavy machines. In many cities travellers ' train run on electricity. Some electric trains run underground through tunnels .One of the fastest train in the world is called bullet train .It is a Japanese electric train .It can travel at 300 kilometers per hour.

Read the text and answer yes or no.
